

# Design Review Recipes

Design reviews come in all shapes and sizes. There are also different items to consider when creating a design at different stages during an engagement

## Design Review Process

- Incorporate design reviews throughout the lifetime of an engagement

## Design Review Templates

### Game Plan

- The same template already in use today
- High level architecture and design
- Includes technologies, languages & products to complete engagement objective

### Milestone / Epic Design Review

- Should be considered when an engagement contains multiple milestones or epics
- Design should be more detailed than game plan
- May require unique deployment, security and/or privacy characteristics from other milestones

## Feature / Story Design Review

- Design for complex features or stories
- Will reuse deployment, security and other characteristics defined within game plan or milestone
- May require new libraries, OSS or patterns to accomplish goals

## Task Design Review

- Highly detailed design for a complex tasks with many unknowns
- Will integrate into higher level feature/component designs
